

“Should have opted for the second day.”

Thank you for a great Track Attack experience! It was all I expected and more. This was the first time on a road course for me and I found the pace of the exercises and track sessions perfect. By the end of the day I was very comfortable driving the car at speed. If only the day could have lasted longer! Should have opted for the second day. Please extend my thanks to all the high quality, first class instructors.
